**Subject:** FW: SEMD Remedial PFAS Update - May 11th

Jill,

We have a last minute PFAS update to report for your PFAS meeting today.

## Nonresponsive based on revised scope

I'll get the HQ consult completed and the R3 database updated.

Please let me know if you have any questions or need additional information.

Thanks,  
Aaron Mroz

**Subject:** SEMD Remedial PFAS Update - May 11th

Jill,

Not much has changed over the last two weeks for PFAS at the remedial sites. Mostly just waiting for data or reviews to be completed. Please see below for today's update for the Remedial PFAS activities and I will give the update during the meeting.

# Nonresponsive based on revised scope

**Blades:** Removal FSP for sampling the newly installed monitoring wells was approved and sampling occurred April 27th and 28th. After data validation, EPA will receive results. EPA and the State reviewed the DES contractor QAPP/FSP and provided comments on the original QAPP. The DES contractor addressed these comments with a Response to Comment Letter and a revised QAPP. This revised QAPP is currently being reviewed by the Site team and comments back on the revised QAPP are expected the week of May 10th. The consult with OSTRI and OEM for residential well sampling was supposed to occur the week of May 10th, however Region 3 is awaiting HQ to schedule said consult.

# Nonresponsive based on revised scope
